Eco Collective
Walking the eco walk together.

Introduction

Thank you for your interest in participating in The Eco Collective Fashion Event. We're excited to offer a platform that unites eco-friendly brands—big and small—to collaborate, innovate, and foster community for a brighter, more sustainable future.

At The Eco Collective, our mission is to bridge the gap between emerging and established brands, allowing everyone to share ideas, resources, and visions for sustainable fashion. This event is designed to provide businesses of all sizes with a rare opportunity to showcase their ethical collections, gain vital PR exposure, and connect with an engaged, eco-conscious audience.

Whether you're a small, innovative designer or a larger established brand, the Eco Collective offers a dynamic space to grow and contribute to the eco-movement. Our event fills a critical gap in the industry by giving sustainable businesses the platform they've long been denied in the traditional fashion landscape, where big corporations dominate.

To put this into perspective, small eco-friendly businesses make up more than 85% of the sustainable fashion market but have access to less than 20% of major fashion events. Larger brands, though they represent just 15% of the market, dominate over 80% of the runway and showcase opportunities. This imbalance is something we aim to address head-on by giving all eco-conscious businesses the space they need to shine.

By joining the Eco Collective, you'll:

- Present your collection in a curated showroom alongside other ethical brands.
- Showcase your work on the runway and gain media coverage typically reserved for larger brands.
- Be part of a movement that's reshaping the fashion landscape and positioning eco-friendly fashion at the forefront of innovation.

The Eco Collective is about creating a future where sustainability is the driving force of fashion—together, we can make this vision a reality. Don't miss your chance to be part of this groundbreaking transformation.
